

## Geometry

### Student Supply list:

\_\_\_\_\_ Student text isbn 978-0-030-35828-9 Holt Geometry

\_\_\_\_\_ Pencils/Mechanical Pencils NO INK!

\_\_\_\_\_ Colored Pencils

\_\_\_\_\_ Clear Protractor

\_\_\_\_\_ Drafting Compass (metal with a screw-wheel adjustment)

\_\_\_\_\_ Ruler with metric and English measures (included on some protractors)

\_\_\_\_\_ Blank Paper for constructions

\_\_\_\_\_ Graph Paper (under 50 sheets will be used)

\_\_\_\_\_ Binder or pocket folders with brads (we will have handouts)

\_\_\_\_\_ Notebook or Notebook paper (college ruled) for homework and notes

\_\_\_\_\_ Calculator \*\*\* Students will need a scientific calculator with a multi-line display. My preference is the TI-30Xii series. It keys in similar to a graphing calculator--but costs under \$20. If the student already owns a graphing calculator they may use it--but we will not be using any of the graphing features in this course.
